

BLUE DRAGON DEFENSE

Mission-Ready CBRNE Sampling, Detection & Decontamination

CAPABILITIES STATEMENT

COMPANY OVERVIEW

Blue Dragon Defense is a Service-Disabled Veteran-Owned Small Business that designs, configures, and manufactures CBRNE (Chemical, Biological, Radiological, Nuclear, Explosive) sampling, detection, collection, and decontamination kits for military, federal, state, and local first-responder organizations. From single-use sampling kits to rolling field systems capable of collecting 100+ samples, our equipment supports rapid environmental, forensic, and CBRN site characterization with built-in chain-of-custody documentation.

CORE COMPETENCIES

- CBRNE sampling & collection kits — biological, liquid, solid, and residue
- CBRNE detection and field-monitoring equipment
- Decontamination products, including RSDL (Reactive Skin Decontamination Lotion)
- Custom / mission-configured kit builds to unit SOP and chain-of-custody requirements
- Training kits, refills, and consumables

DIFFERENTIATORS

- Veteran-owned and operated — built by operators, for operators
- Configurable kits tailored to specific mission and evidentiary requirements
- Section 889 compliant supply chain (representation available for download)
- Responsive government quoting for .mil and .gov customers

COMPANY DATA

UEI: QPDJU6CCJAT4

CAGE Code: 112N9

SAM.gov: Active Registration

Business Size: Small Business

Socioeconomic: SDVOSB
